SUMMARY

Software developer and designer with expertise in web application development using JavaScript, React, Tailwind CSS, Node.js, and PostgreSQL. Skilled in creating engaging and user-friendly solutions.

TECHNICAL SKILLS

Languages	JavaScript, Python, HTML5, CSS3
Frameworks	React, Tailwind, Node.js, Express.js
Databases	PostgreSQL

PROJECTS

Full Stack Chat Application *Tech: HTML5, CSS3, JavaScript, Socket.IO*

- Built a chat interface with real-time messaging capabilities using Socket.IO.
- Implemented commands for custom values, calculations, and emoji replacements to enhance user interaction.
- Designed a feature allowing users to set usernames upon joining chat rooms and constructed a system to maintain an accurate count of online users.

X (Formerly Twitter) Clone *Tech: HTML5, CSS3 (Tailwind), JavaScript, React, SQL (PostgreSQL), Node.js*

- Created a responsive User Interface using Tailwind CSS, ensuring optimal performance across various devices and screen sizes.
- Leveraged Supabase and Sequelize ORM library for seamless database management, resulting in efficient data handling and retrieval processes.

ChatBot *Tech: Next.js, TypeScript, Tailwind CSS, OpenAI API, Vercel*

- Engineered a chatbot using Next.js and TypeScript, integrated with OpenAI's API for advanced natural language processing.
- Crafted client-side input handling and efficient API response processing for smooth user experiences.
- Deployed the application on Vercel, ensuring seamless access and interaction for users.

EDUCATION

Full Stack Web Development Cohort December 2023
100x Engineers

Bachelor's Degree in Commerce April 2023
KJ Somaiya College of Arts and Commerce, Mumbai, Maharashtra

12th Grade April 2020
Carmel Convent School, Neemuch, Madhya Pradesh

LANGUAGES

Hindi, English
